**Letter of Recommendation**

It is my great pleasure to recommend YOHANNES ASAYE SISAY for admission in your scholarship program. I have known him as undergraduate student for the last 5 years and was delighted to see his progress in the Geology Department. During that time, I watched him grow into outstanding individual who excels in both his academic and personal career.

As department head, and his instructor I witnessed his extraordinary intellectual strengths on his academic performance and field work to boost out in solving geological problems was very impressive. YOHANNES ASAYE'S academic accomplishments are rivaled only by his personal strengths. He was committed on his academic activities and he has excellent personal communication skill with all persons joined on his work as well as he was honest and hardworking. He is well loved by his peers, and who have had pleasure of teaching him.

I highly recommend him to accept YOHANNES ASAYE for your scholarship program. I am confident he will make an excellent addition to your university, please feel free to contact me if you have questions regarding his character and past academic and field work performance.

Again, I wish him all the best in his future career.

Sincerely;

Tesfatye Demissie (PhD)

Assistant Professor,

( Geochemistry & Economic Geology)
