

FIDEL ALEMAYEHU HAILEMARIAM

SOFTWARE DEVELOPER

I am a highly motivated software developer and also a QA Engineer with over a year of experience in the development of software remotely. I specialize in developing website and mobile applications using the latest technologies, particularly for Android and iOS. I believe in focusing on user experience and creating intuitive designs that provide users with the best possible experience. I am a problem solver, adept at resolving complex technical issues, and a strong team player, adept at working effectively with other developers and cross-functional teams.

WORK EXPERIENCE

PYTHON DEVELOPER

August 2021- October 2021

UltraSet Solutions

- I worked on different Django projects, including developing a comprehensive user interface and building a CRM website and working on multiple API-based applications and services.
- I was also part of agile projects and understand the importance of effective communication and embracing new technologies.

QA ENGINEER

July 2022- October 2022

Pixel Import and Export

- I was responsible for developing and implementing testing processes, creating and executing test plans, and ensuring that the product meets the required standards.
- I was also responsible for monitoring and reporting on the progress of the project, and for providing feedback to the development team.

FLUTTER DEVELOPER

March 2023 - October 2023

KGP2 ss India PVT LTD

- I was a full-time freelancer involved in developing cross platform applications for Android and iOS. I have gained significant experience and expertise through projects such as Wayyana, a quiz game app, PleasureBee, a comprehensive networking and dating app, and SEM, an online examination application with payment integration

IT OFFICER

November 2023 - current

Amhara Bank

- I am responsible for maintaining the bank's mobile application, fixing bugs integrating different payment APIs and releasing new versions. Additionally, I participate in many internal software development projects at the bank.

EDUCATION

ADAMA SCIENCE AND TECHNOLOGY UNIVERSITY

Bachelor's degree in COMPUTER SCIENCE AND ENGINEERING

2018-2023
