Letter of recommendation

I feel great pleasure to write a recommendation letter in favor of my former student, **Miss. Halewat Abebe** who was awarded BSc degree in Biotechnology from Addis Ababa Science and Technology University, Ethiopia. **Miss. Halewat Abebe** has been known to me for years while I was teaching course like Industrial Biotechnology and Enzyme Technology. During that period I could observe that **Miss. Halewat Abebe** is resourceful, creative and eager to learn new things with high motive and can also work well independently or as part of a small group and produces high quality assignments. As graduates in biotechnology, **Miss Halewat Abebe** can

- Work in health, industry, agriculture, pharmaceutical or environment sectors and find solutions by applying biotechnological knowledge;
- Design and carry out research in biotechnology as well as handling laboratory equipment;
- Identify relevant problems in health, industry, agriculture, or environment sectors;
- Manage and perform project activities in biotechnology and related disciplines;
- Master and proficiently perform fundamental and modern techniques biotechnology
- Follow and ensure ethical procedures in conducting research, as well as reporting and communicating research outputs;
- Be entrepreneurship for establishment of bio-based products and services;
- Be a researcher in health, industry, agriculture, or environment

In summary, as the head of the department of Biotechnology, I strongly recommend her for jobs in the areas of biotechnology and further studies in her areas of specialization. If you have any inquiries, please don't hesitate to contact me.

Sincerely yours,

Ebrahim Mama Abda (PhD)
Head of Biotechnology
Department
