Dear Admissions

I am writing to enthusiastically recommend Yohannes Teklemariam Haile for any intermediate-level math class. As Yohannes's math teacher for the past year, I have had the pleasure of watching him develop into a passionate and dedicated math student.

Yohannes is always willing to put in the extra effort to understand difficult concepts, and he is not afraid to ask for help when he needs it. He is a natural problem-solver and is able to approach complex mathematical problems with a logical and systematic mind-set.

One of Yohannes' greatest strengths is his ability to collaborate with others. He is always encourages his classmates to work together to solve problems. He is patient and supportive, which makes him an invaluable asset to any group project.

Yohannes has also shown great initiative and creativity in his math studies. He is always looking for new ways to challenge himself and to apply math concepts to real-world problems. I have no doubt that he will continue to excel in any math program or course he chooses to pursue.

Overall, I highly recommend Yohannes for any intermediate-level math class. He is an exceptional student who is passionate about math, works hard, collaborates well with others, and approaches challenges with a creative and analytical mind-set.
