

Dear Admissions Committee,

I am writing to express my genuine enthusiasm and strong interest in pursuing admission to the Master's Program in Environmental Engineering at Polytechnic Marche. My name is Bereket Lemenh, and with a degree in Chemical Engineering from Addis Ababa University, I am deeply passionate about addressing environmental challenges through sustainable engineering solutions and innovative methodologies.

My academic journey and professional experiences have cultivated a profound commitment to environmental preservation and sustainable development. The intricate interplay between industrial processes, environmental impact, and the imperative need for eco-friendly solutions has been a driving force in shaping my academic and career aspirations. I am eager to expand my knowledge and skills in addressing complex environmental issues through an interdisciplinary approach that amalgamates engineering principles with environmental stewardship.

The Master's Program in Environmental Engineering at Polytechnic Marche encapsulates the ideal platform for me to further my academic pursuits. The program's comprehensive curriculum, emphasis on practical applications, and research opportunities align harmoniously with my ambitions to delve into the realm of sustainable environmental engineering. I am particularly drawn to the institution's commitment to nurturing critical thinking, technical expertise, and innovative problem-solving skills, all of which are profoundly essential in addressing contemporary environmental challenges.

By enrolling in the Master's Program at Polytechnic Marche, I aspire to not only acquire advanced knowledge in environmental engineering but also actively contribute to the ongoing efforts to create a sustainable and resilient future. I am eager to collaborate with distinguished faculty members and fellow scholars to engage in cutting-edge research, hands-on projects, and practical initiatives that can drive positive change in environmental sustainability.

Thank you for considering my application. I am genuinely excited about the prospect of joining the esteemed academic community at Polytechnic Marche, where I hope to enrich my knowledge, foster meaningful connections, and contribute meaningfully to the field of environmental engineering.

Warm regards,

Bereket Lemenh
