**To whom it may concern:**

It is a pleasure to recommend Tadios Hailu whom I have taught in my Physics class over the year. Tadios is an exceptional student, and I have long been impressed by both his academic and interpersonal skills. Throughout the time that I've spent teaching him, he has shown me not only academic but also personal growth, his eagerness to learn and to understand the lesson was something I've always liked about him.

Tadios's character is also impressive. He acts with generosity and compassion, and he is well respected by his peers and teachers alike. He also is very active in extracurricular activities, he is a hard worker and I do not doubt in my mind that he will succeed in whatever path he chooses to take on.

Tadios is a very quick learner and an exceptional student especially when it comes to things he is passionate about. So I hope you consider him to be a student at your college. Yodahe Zewude (MSc.)
