Letter of recommendation

To whom it my concern

I would like to express my feeling about my former student Anteneh Getnet.

I know Anteneh Getnet from the date he was assigned as preparatory student to our school Tagel Senor and Preparatory School in South Gondar Simada at Wogeda town.

As a chance I got an opportunity to teach him in both grade levels grade 11 and 12. He has been one of the best students in a school that I taught **Physics**. His talent and effort to acquire knowledge around my subject is very appreciable student. I always admire him in front of his classmates for his good will. His curiosity and eagerness to know about **Physics** is interesting. He was also one of the best students to complete his class works and assignment given individually. He was also sociable to work with his classmate and has good capacity to organize the group work and to help the lower grade level students.

I hope in the future he may become a good student in his academic carrier, if he got the chance.

I wish him the best luck.
