To whom it may concern

Re: Recommendation Letter

I am writing this letter to give my highest recommendation to **Miss. Tsegakiros Geberu Hagos**, who has been a student at our institute for the last five years. I got to know her as his teacher and department head during her stay, and I thought Raw hide, leather chemistry, leather processing-II, Leather finishing and leather dyeing techniques. She has demonstrated a high degree of sincerity, hard work, great endeavour, and diligence, which enabled her to successfully complete her studies and get a BSc degree in Leather Engineering.

It is my conviction that if she is given an opportunity to work in your leather industry, such as leather processing and leather products, or to pursue her further studies in an M.Sc. in leather-related program, she will successfully show her capacity or complete her studies to your satisfaction and will achieve very good results. I also believe that upon successful completion of her studies, she will make use of the knowledge she gains for the benefit and welfare of our country. She is talented, caring, intuitive, and dedicated in her pursuits.

I don't hesitate to recommend Miss. **Tsegakiros Geberu Hagos** for any work relevant to any leather industry, such as leather processing and leather products, and for the M.Sc. programme study that he wants to enrol in.

Please feel free to contact me if you have any questions using the information in the heading.

Zerihun Teshome (Lecturer)

*BSc. Leather Engineering and M.Sc. in Leather Product Design and Engineering
Leather Engineering Department Head*
