Dear Sir/Madams,

It is with great honor that I recommend Tsion Dejene Gizaw to your admissions committee.

I have had the pleasure of being Tsion' s Counselor throughout her high school years. I have been there to guide her through her trials, and I have watched her grow into the capable person she is now. She is one of our self-taught students. She goes above and beyond to acquire knowledge. She shows immense potential and she constantly strives for excellence. It is truly a delight to vouch for this remarkable young woman.

Tsion has been one of the top scorers our school had a pleasure of teaching, both academically and socially. I am astonished by all that she has accomplished so far, and can' t wait to see where life takes her. She has a persistent spirit and all the challenges that she faced have truly made her a keen optimistic individual.

She is one of the rarest students the school has had. She brings great dynamism to any positive activity done in the school whether they be academic classes or extra-curricular activities, she works with immense motivation and diligence. Her impressive social skills also helped her to get along with the school community, her peers, and teachers alike. She has a major influence on her peers and classmates, being the top student in her class the students find her reliable to present their different opinions.

As Tsion' s counselor, I strongly believe that she brings something of value to any place she goes to and I highly recommend her for your undergraduate program. Please feel free to contact me at fantushalom2021@gmail.com for any further questions,

Sincerely,
