To whom it may concern

It gives me a great pleasure to write this recommendation letter for **Mr. Liben Solomon Woldegiorgis** whom I have known as a student of our university and he accomplished his final research paper for the partial fulfillment of BSC Degree in Architecture in the department of Architectural Engineering. I advised him for the final research title known as "**Better treatment approach regarding alcoholism**" and he scored an admirable result. This period gives me ample opportunity to observe his potential and personality.

Mr. Liben Solomon has a good personality well liked by his classmates and instructors as well. He possesses all the essential attributes and quality to succeed and develop his academic career. He is also duty conscious and most industrious person.

Over all I do not know of any character and personality trait, to develop his academic career or in any additional academic endeavors.

Therefore I have no any reservation in recommending him strongly for his profession, conducting sound and reliable research and any related profession that he wants to pursue.

Sincerely yours
