## Letter of Recommendation

It's with great pleasure that I write this letter of recommendation for Mr Natnael Deribe Girma whom I know as under graduate degree student of BSc. Pharmacy in Clinical Oriented and I Was his lecturer for three courses Medical Equipment's supplies and Reagents, pharmacy Law and Ethics and pharmaceutical marketing and promotion. He is known to me as one of the outstanding students in his undergraduate study.

In his undergraduate study He is actively engaging in various curricular and extracurricular activities. As his teacher/supervisor, I have had the chance to observe that He is an intelligent, creative, analytic, positive, minded, sociable, team oriented, committed, reliable, disciplined, and independent person which can discharge any duty with high degree of responsibility. He is also on active participant of Charity work and Blood donation in Charity and Red cross clubs. I witnessed that He demonstrated the possession of excellent knowledge, skill and positive attitudes.

Based on his academic and personal potential, I believe that Mr Natnael is a qualified candidate for duties requiring his academic potential. Therefore, as a student of mine with excellent scholastic and personal performance, I strongly recommend and wish him all the best in his future endeavors.

With Regards

Taika Adamu

Student Dean

To: The University of Antwerp  
Masters of Epidemiology Department  
Belgium

Subject: Letter of Recommendation:

I am writing to you in support of **Natnael Deribe Girma** and his desire to attend the Masters of Epidemiology program at the University of Antwerp.

**Natnael** is known to me since October 2018 for four years and at this moment he is a fifth-year pharmacy student at Universal Medical and Business College in Ethiopia. **Natnael** is regular in attending class and has an excellent score of grades in most of the courses. As a student, he used to have a special predilection to know and understand complex subject matter. The dedication and effort he made in putting his projects and seminars together over those years is highly appreciated and speaks for his ability to bear a heavy responsibility.

In general, **Natnael** is a meticulous and diligent person. He has a good personality that is amenable to criticism and shaping. He is also very much sociable, self-disciplined, and confident. He has good written and oral communication skills in English. This would undoubtedly enable him to work in harmony with staff and students in the institution he wishes to affiliate with.

I am impressed with **Natnael** and have no hesitation in strongly recommending him to join this program at your university, and wish him all the best in his future endeavors.

With Warm Regards,

Tadesse Alemu (B.Sc., MPH), Lecturer  
Head, Research and Community Engagement Office  
Universal Medical and Business College
