To whom it may concern

Subject: Recommendation Letter

It gives me great pleasure to write this recommendation letter to one of my outstanding students, **Mr. Petros Asmare Endalew**. I know **Petros** as an undergraduate student in Department of Computer Science, Kotebe University of Education, and I have taught him the course "Computer Security".

In this course, he has scored excellent result (A+) while he was also an active participant in class discussions. He was keen to learn new things and picked up well easily. He is also punctual, very well organized, and diligent in class works. Also, he has been independent worker and instrumental in helping his fellow classmates. He was one of the best performers in doing a final project.

Therefore, I take the privilege to strongly recommend one of my best students, **Petros**, as a proficient candidate for any professional and academic opportunity. It's my belief that he would benefit from and surely excel in any professional and academic endeavor he takes upon due to his high level of dedication, which he has exhibited towards his study.

Best Regards,

Befekadu Bekuretsion (MSc in Computer Science)

Lecturer, Department of Computer Science and Technology
Kotebe University of Education (KUE), Addis Ababa, Ethiopia
