

Dear Members of the Admissions Committee,

I am writing to express my earnest interest in the Master's program in International Economics at the University of Marche. With a solid foundation in economics, underscored by my 3.20 GPA from St. Mary's School, I am eager to expand my understanding of global economic frameworks and contribute to the field through rigorous academic research. My academic journey in economics has been marked by a profound curiosity about how economic theories translate into real-world policies and their subsequent impact on international trade and development.

The comprehensive curriculum of the University of Marche, combined with its emphasis on empirical research, presents an ideal platform for me to delve deeper into these areas. During my undergraduate studies, I have not only excelled academically but also actively participated in economics seminars and workshops, which have honed my analytical skills and ability to synthesize complex economic data.

These experiences have instilled in me a strong sense of the practical applications of economic theory and a desire to engage in policy-making processes that can shape economic growth and stability. The multicultural environment and the prospect of engaging with a diverse cohort at the University of Marche are particularly appealing to me.

I am confident that the exchange of ideas with peers and faculty will enrich my perspectives and equip me with a nuanced understanding of international economic issues. I am particularly drawn to the research-intensive approach of the program, which aligns with my career aspiration to become an economist who can bridge the gap between theoretical research and policy implementation. I am excited about the opportunity to work under the guidance of the esteemed faculty at the University of Marche and contribute to the academic community through my dedication and scholarly enthusiasm.

Thank you for considering my application. I am looking forward to the opportunity to discuss my application in further detail.

Warm regards,

Nuhamin Solomon
