To whom it may concern

Subject: Letter of recommendation for Elias Abdela

It is with great pleasure that I write this recommendation for Elias Abdela. I know him from 2010 E.C to 2014 E.C when he was the student of ALKAN Health Science Business And Technology College, department of pharmacy. He was competent and clever student. I found him to be an agreeable and kind person who is never afraid to take responsibilities and assignment on challenging tasks. He was one of our most dedicated students to perform any tasks entrusted to him as a student.

I know Elias Abdela as highly responsible, perceptive, outstanding and dedicated. I have seen him many a time, making tremendous development in many school duties ranging from membership in extracurricular activities to demonstrating active class participation. he has been punctual in meeting school duties, friendly and resourceful, for which reason he has gained the respect of his colleagues and teachers.

If any further information required please contact me.

Sincerely,

Muktar ...
