Letter of recommendation

To whom it may concern

I wrote this letter upon the request of **Bereket Lemenh Alemu** to recommend him for employment. I came to know him as one of my students during his undergraduate education studying Chemical Engineering at Addis Ababa Institute of Technology (AAiT), Addis Ababa University. **Bereket Lemenh Alemu** has excellent communication skill. His written work is clear and concise. He always explained his views very concisely and gave supporting arguments that were both clear and persuasive. He has also demonstrated good team working skills in group assignment. He is well disciplined, industrious student with pleasant personality. In addition, He is a very promising graduate of the highest person order for employment. He has proven himself to have the preservice and initiative and the intellectual creativity necessary to successfully complete any job assigned to him. As he well excels in performing it, I am confident that he will make a valuable addition to the organizations that employ him. He will be a dependable asset to employers. I would therefore highly recommend him for any job related to industry and other related socio-economic sectors.

I will provide any additional information when ever required and upon request.

With Regards,

Dr. Eng. Abubeker Yimam, Associate Professor
Dean, of School of Chemical and Bio Engineering
Addis Ababa Institute of Technology, Addis Ababa University
