To whom it may concern

Dear Sir/ Madam

It gives me a great pleasure to write this letter of recommendation in support of **Mr. Eyob Gutema** in his application for the scholarship position at your University.

I have known Mr. **Eyob Gutema** during his Bachelor study at Department of Mathematics, Addis Ababa University in the Academic year 2021/2022. I gave the student a course in Differential equations in which he has performed the best results. Not only his performance but his enthusiasm to knowledge and cooperative behavior win my admiration.

This is therefore to say that I recommend **Mr. Eyob Gutema** Without reservation.

If you have any question please feel free to contact me.

I wish him a success for his study.

Yours sincerely,
