

Dear Members of the Admissions Committee,

I am writing to express my sincere interest in the Master's degree program in Health Biotechnology at the University of Eastern Piedmont (UPO). I have recently completed my Bachelor's degree in Medical Radiology Technology from KOTEBE METROPOLITAN UNIVERSITY in Ethiopia, and I am excited about the opportunity to further my studies in a program that aligns perfectly with my academic background and professional aspirations.

Throughout my undergraduate education, I developed a profound interest in the field of biotechnology, particularly its applications in health and medicine. My coursework included subjects such as molecular biology, genetics, bioinformatics, and immunology, which provided me with a solid foundation in the principles and techniques of biotechnology.

The University of Eastern Piedmont is renowned for its cutting-edge research and comprehensive curriculum in health biotechnology. I am particularly drawn to your program's emphasis on the integration of scientific research with practical applications in health and medicine. The opportunity to learn from esteemed faculty members who are leaders in their fields and to engage in innovative research projects is incredibly appealing to me.

During my undergraduate studies, I had the privilege of having an internship, where I gained hands-on experience. This experience solidified my passion for biotechnology and inspired me to pursue a career dedicated to advancing health through biotechnological innovations. I am particularly interested in areas such as gene therapy, personalized medicine, and the development of novel diagnostic tools, and I am eager to contribute to research that addresses these critical issues.

I am confident that the Master's program in Health Biotechnology at UPO will provide me with the advanced knowledge and skills needed to excel in this dynamic and rapidly evolving field. I am particularly excited about the prospect of participating in interdisciplinary research projects, accessing state-of-the-art facilities, and collaborating with fellow students who share my passion for biotechnology.

Moreover, studying at UPO in Italy would be an enriching experience, both academically and culturally. The university's commitment to fostering a global academic environment and its strategic location in a country with a rich history of scientific innovation make it an ideal place for me to pursue my studies.

Thank you for considering my application. I am eager to bring my dedication, enthusiasm, and academic background to the Master's program in Health Biotechnology at UPO. I look forward to the opportunity to contribute to and grow within your esteemed program.

Sincerely,
