Dear sir/Madam

I have known Elias Abdela Ali for more than 5 years. I have instructed Mr. Elias the following course: Nutrition and Research during his undergraduate (graduate) student. He was one of the best students of his class. I can state that Elias distinguish him from the students with his intellectual performance and honest character he is serious in his purposes meticulous in his work and reliable in all assigned duties. He is also intelligent, hardworking and sociable character. He has forward looking in his status. Regarding his overall activity I highly recommend to join in your institution.

If he is accepted to your Post graduate school or in any work activity, I am sure he will be a successful Health Professional.

Sincerely

ገብረ ነገሥት
