

November 28, 2022

This is to inform you that Matasabia Degife Woliso is a student in our school Angacha Secondary Preparatory School from 2021-2022 (grade 11 and 12). Matasabia has been a student in our school for two years, so I have learned a great deal about him and his abilities, and I know he would do well if given the opportunity to continue his education.

Matasabia's determination to succeed has led him to excel in our school. He consistently gets excellent marks on his homework, tests and he participate in school voluntary activities regularly. As some teachers informed to his knowledge of physics, chemistry, mathematics convinced me to ask him to become a tutor for other students who were struggling with those subjects-a challenge that he met with great success.

Compared to the other students in class, Matasabia's grades have always been at the top. This has led other students in his classes to ask him for help if they don't understand a lesson.

During the years I've known him, Matasabia has worked to greatly improve his own confidence in his abilities. This improvement is what made him agree to help tutor other individuals. When Students in his own classes began asking him for assistance, his confidence truly began to soar, and it only continues to improve.

I am convinced that Matasabia make a more than valuable contribution to your university, both inside and outside of class. He has my highest recommendation.

Sincerely

School principal.
