### ADDITIONAL INFORMATION

#### PROJECTS

11 JUN 2022 – 11 AUG 2023

**Internship Experience** I pursued my internship at Ethiopian Electric Utility where I created a software for the HR department to ease for them employee management, I created the system using Django.

JUL 2023

**Senior project** Me and my team of four developed a user-friendly online auction system called Acharach by using React, ASP.NET and Microsoft SQL.

Innovative approaches and best practices in software engineering were used to construct a scalable and high-quality platform that satisfied the demand of stakeholders.

#### OVERALL SKILLS

##### SKILLS

- Skilled in planning, implementing, testing, and coordinating activities. A collaborative team player with a focus on delivering high-quality results using agile methodologies and attention to detail.
- Proficient in Java, C#, PHP, CSS, HTML 5 and Android framework like Retrofit Libraries. Additionally, I am skilled with databases like MySQL and SQL.
- Strong problem-solving skills and a productive team player with excellent communication abilities.
- Skilled in building and utilizing REST APIs effectively for seamless communication between systems.

## **VOLUNTEERING**

23 FEB 2021 – 25 MAR 2021 Addis Ababa, Ethiopia

**VOLUNTEERING Charity For Students** I volunteered for a charity helping impoverished students, providing essential clothing and educational resources. Witnessing their gratitude fueled my passion for service. Small gestures like books or coats had significant impacts, motivating ongoing support. Each donation boosted confidence, enriched learning, and nurtured hope. Handing over items brought deep fulfilment, knowing I helped ease burdens and empower them despite financial challenges.
