

Dear Sir or Madam,

I have had the privilege of working with Petros Asmare since early 2023 until the present time while he served NEPS (New English Private School) as a support specialist. NEPS is a preKG to 12 school with almost 3,000 students and 8 campuses around Addis Ababa, Ethiopia.

Petros is easily one of the brightest minds I have met in my entire career. He was brought onboard at NEPS to solve many complex networking challenges pertaining to a lack of infrastructure, resource limitations and multiple departments and campuses that are supposed to work in harmony but had a history of working in silos. Petros was single handedly able to give timely, culturally appropriate and highly efficient solutions to all the problems we put in front of him.

During his time at NEPS, we worked effectively with our local and international staff easily traversing many cultural barriers. Petros expresses himself easily and eloquently in English and has proven to be an excellent team player. He has a bright future in front of him and as much as we are all sad to see him leave NEPS, I have no doubt that he will be an invaluable addition to your team.

Melody Kelemu

Director of Special Projects

NEPS (New English Private School)
